

DZ828W ELECTROMAGNETIC RETAINER CONNECTION DATA SHEET AND INSTRUCTIONS

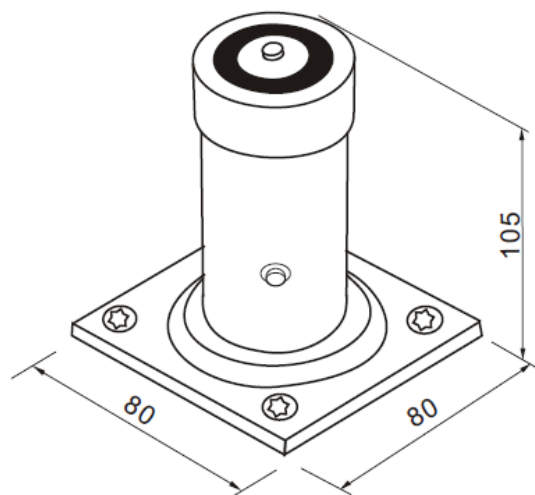

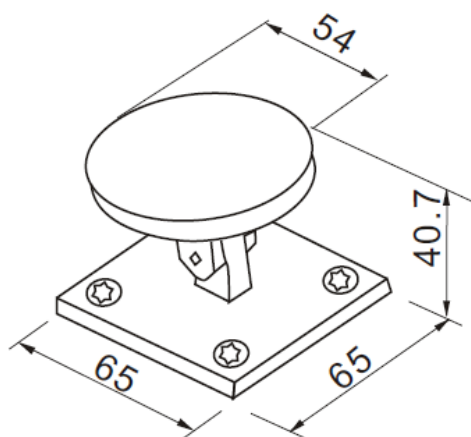

Brief Description

The DZ828W is an electromagnetic retainer specially designed for use on fire and smoke doors, and is wall-mounted. The counterplate reaches a 45° angle, allowing the retainer to be perfectly aligned with the counterplate when the door opens to 90° or more.

Technical Parameters

Measures	80 x 80 x 105 mm
Working current	12V/140mA 24V/70mA
Selectable voltage	12V DC or 24V DC
Finish	High temperature lacquered (black)
Working temperature	- 10~+55°C
Traction force	50 kg
Weight	1.00 kg

Dimensions

Triplo W

DZ828W

Installation
